OPTIONS, MAKER OF UNFORGETTABLE MOMENTS

Dear customer,

Options can't wait for you to explore its new 'furniture only' catalogue.

Get ready to create unforgettable moments by choosing from our classics, of course, but also from Options' new and exclusive products.

This resolutely modern new sofa will inspire you to create chic seating areas with a bold edge.

A standout among our selection of chairs, the new Joséphine chair is designed in-house and made in Europe. This showpiece is destined to be the star of many beautiful dinners to come.

In addition to our new 'furniture only' catalogue, we are launching 'Options Services': our new event set-up service created to ensure that you enjoy Options quality from start to finish.

CSR POLICY

Options offers its customers a furniture and tableware hire service integrating a CSR approach.

Hiring to avoid buying, hiring to avoid throwing away – our profession is at the very core of this commitment. At Options, our commitment to sustainable development is a logical step forward and is embedded in the ethical framework of our company.

We are committed to 3 areas of action in our daily operations:

Economic Sustainability

- Our hire service is ISO 20121-certified, thanks to our sustainable supply chain management.
- Over 60% of our products for hire are made in France.

Social Responsibility

- Safety in the workplace: annual assessment of occupational risks and implementation of preventive measures.
- Inclusion: our recruitment policy promotes hiring people with disabilities, working with ESATs (organisations that help people with disabilities find work).
- Quality of life in the workplace: annual survey and employee feedback.
- Training, especially safety-related training.

Environmental Responsibility

- Our in-house manufacturing and repair workshops enable us to extend product lifespan, facilitate repairs and reduce the use of disposable packaging associated with new purchases.
- The majority of waste generated is sorted internally and recycled by our service providers.
- We build employee awareness about environmentally friendly practices.
- We have installed a biofuel tank, greened up our vehicle fleet and deployed solar panels.
